Great Tips for Gorgeous Eyes!

Standard Eyes

Eyes that are about one eye width apart.

- 1** First, apply the highlighter shade on brow bone, lid and along inner third of lower lashes.
- 2** Next, apply the midtone shade in crease starting at the outer corner and blend.
- 3** To finish, apply and blend the accent shade along top lashline and into outside half of crease. Apply along lower lashline.

Highlighter – The lightest shade used in an eye look. It enhances eye features such as the brow bone and inner corner of the eye.

Midtone – The medium shade used in an eye look. For a day look, this shade is usually neutral.

Accent – The darkest shade used in an eye look. It adds a pop of color and depth to the eye.
